ABOUT ME

Computer Science student at the College of Computing passionate about Frontend Development, Backend Development, and UX/UI Design. Enjoys building intuitive user interfaces while continuously developing backend skills to create complete, scalable, and maintainable web applications. Possesses solid web development fundamentals and is eager to learn new technologies and best practices.

EXPERIENCE

Academic projects

Present

Developed academic projects individually and in teams, strengthening skills in requirements analysis, web application development, UX/UI design, database design, REST API development, and collaborative problem-solving.

Frontend Developer Intern (Alpega TMS Asia Co., Ltd.)

April 2026 - July 2026

Migrated legacy RPM UI screens to Angular, developed reusable migration guidelines, integrated backend APIs, implemented unit tests, and utilized AI-assisted development to improve productivity and code quality.

Competition

August 2025

Selected as top 10 finalist in Krungsri UniVerse x KKU Hackathon's TourTech Challenge. Led concept development, designed tourism solution and UX/UI, developed functional prototype, and presented to judges. Enhanced problem-solving, Design Thinking, and web development skills.

Teaching Assistant – Fundamentals of Computer Science

June 2023 - October 2023

Teaching Assistant for Fundamental Computer Science. Supported classroom instruction, explained core computer science concepts to students, graded assignments, and provided guidance on exercises and coursework.

EDUCATION

Bachelor's degree

Present

Computer Science Program, College of Computing, Khon Kaen University (GPAX 3.37)

High school

May 2017 - March 2022

Amnatcharoen School, Science-Mathematics Program

SKILL

• Technical skills :

- Frontend Development : HTML , CSS , JavaScript , TypeScript , React , Next.js , Tailwind CSS , Bootstrap , Angular
- Backend & Web Development : Node.js , Express , Laravel

• Language : English , Thai

• UX/UI design : Figma , Wireframing & Prototyping

• Soft skill : Strong collaboration and teamwork abilities, leadership qualities, adaptable and continuously eager to learn new things

• Tools & Collaboration : Jira , Confluence , GitHub / GitLab
